ALGAE IN THAILAND

OEPP BIODIVERSITY SERIES
volume three

Division : Cyanophyta (Myxophyta)
Blue-Green Algae

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
Chroococcales			
Chroococcaceae	<i>Chroococcus</i> Naegeli <i>C. turgidus</i> (Kützing) Naegeli	Khung Krabane, Chanthaburi: among the filaments of <i>Hydrocoleum lyngbyaceum</i> together with other filamentous blue-green algae.	Umezaki and Lewmanomont (1991)
Chamaesiphonaceae	<i>Xenococcus</i> Thuret <i>X. gilkeyae</i> Setchell et Gardner	Ban Phe, Rayong : on <i>Lyngbya semiplena</i> ; Si Racha, Chanthaburi: on <i>Lyngbya semiplena</i> .	Umezaki and Lewmanomont (1991)
	<i>Hyella</i> Bornet et Flahault <i>H. caespitosa</i> Bornet et Flahault	In dead mollusk shells : Khung Krabane, Chanthaburi ; Ban Phe and Prasae, Rayong ; Si Racha ; Chon Buri, Hua Krang, Phangnga.	Umezaki and Lewmanomont (1991)
	<i>Pleurocapsa</i> <i>P. crepidinum</i> Collins	Si Racha, Chanthaburi : on rocks or on <i>Kyrtuthrix maculans</i> near high tide level, on the bottom of a concrete tank in which <i>Gracilaria</i> spp. are cultivated.	Umezaki and Lewmanomont (1991)

Order / Family	Genus / Species	Site found	Reported by / Year
Nostocales			
Oscillatoriaceae	<i>Oscillatoria</i> Vaucher		
	<i>O. brevis</i> (Kützing) Gomont	Khung Krabane, Chanthaburi : among muddy grains in the intertidal zone; Si Racha, Chanthaburi : on muddy bottom in concrete tank in which <i>Gracilaria</i> spp. are cultivated.	Umezaki and Lewmanomont (1991)
	<i>O. chalybea</i> Mertens ex Gomont	Si Racha, Chanthaburi : on muddy bottom in a concrete tank in which <i>Gracilaria</i> spp. are cultivated.	Umezaki and Lewmanomont (1991)
	<i>O. corallinae</i> (Kützing) Gomont	Prasae, Rayong : among the filaments of <i>Dichotomosiphon</i> sp. ; Ban Phe, Rayong : among the filaments of <i>Cladophoropsis</i> sp.	Umezaki and Lewmanomont (1991)
	<i>O. margaritifera</i> (Kützing) Gomont	Thailand. Khung Krabane, Chanthaburi : among the filamentous blue-green algae in a brackish water shrimp pond; Sri Racha, Chonburi : on muddy bottom in a concrete tank in which <i>Gracilaria</i> spp. are cultivated.	Nateewathana <i>et al.</i> (1981) Umezaki and Lewmanomont (1991)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>O. nigro-viridis</i> Thwaites ex Gomont	Si Racha, Chon Buri : among the filaments of <i>Ulothrix</i> sp. in a rock depression in the intertidal zone.	Umezaki and Lewmanomont (1991)
	<i>O. tenuis</i> Agardh var. <i>natans</i> Gomont	Waterhole near Lem Ngob.	Schmidt (1900-1916)
	Trichodesmium Ehrenberg <i>T. hildebrandtii</i> Gomont	Koh Chang, Golfe de Siam. Koh Chang; abundant in maritime plankton throughout the area explored.	Weber-van Bosse (1913) Schmidt (1900-1916)
	Phormidium Kützing <i>P. ambiguum</i> Gomont	Khung Krabane, Chanthaburi : among the filaments of <i>Hydrocoleum lyngbyaceum</i> and other filamentous blue-green algae.	Umezaki and Lewmanomont (1991)
	<i>P. endolithicum</i> Ercegovic	Ban Phe, Rayong : in dead coral blocks, together with Gomontia stage of <i>Monostroma</i> sp.	Umezaki and Lewmanomont (1991)
	<i>P. inundatum</i> Kützing	Waterhole near Lem Ngob.	Schmidt (1900-1916)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Lyngbya</i> Agardh		
	<i>L. confervoides</i> Agardh ex Gomont	Mae Yai Bay, Kao Surin, Phangnga.	Umezaki and Lewmanomont (1991)
	<i>L. lutea</i> (Agardh) Gomont	Si Racha, Chanthaburi : on rocks near high tide level, together with <i>Lyngbya semiplena</i> .	Umezaki and Lewmanomont (1991)
	<i>L. semiplena</i> (C.Agardh) J. Agardh ex Gomont	Prasae, Rayong : on rocks along high tide level ; Khung Krabane, Chanthaburi : on aerial roots of mangrove; Si Racha, Chanthaburi : on rocks along high tide level, together with <i>Lyngbya lutea</i> and <i>Calothrix scopulorum</i> .	Umezaki and Lewmanomont (1991)
	<i>L. majuscula</i> (Dillw.) Harvey ex Gomont	Mangrove swamp near Lem Dan on aerial roots of <i>Rhizophora conjugatae</i> between tide-marks. Thailand. Nai Yang Beach, and Rawai Beach, Phuket; Hua Krang, and Kao Lak, Phangnga; Sai En Bay, Ko Pipidon, Krabi and Ko Surin, Phangnga. Coral reefs. Coral reefs, tide pools, on other seaweeds or seagrasses.	Schmidt (1900-1916) Nateewathana <i>et al.</i> (1981) Umezaki and Lewmanomont (1991) Lewmanomont (1988) Lewmanomont and Ogawa (1995)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>L. epiphytica</i> Engler et Prantl	Thailand.	Nateewathana et al. (1981)
	Hydrocoleum Kützting		
	<i>H. cantharidosmum</i> (Mont.) Gomont	Hua Krang, Phangnga : on rocks in the intertidal zone.; Nai Yang, Phuket.	Umezaki and Lewmanomont (1991)
	<i>H. lymbbyaceum</i> Kützting ex Gomont	Mangrove swamp near Lem Ngob, forming black, shining patches on the muddy ground and on aerial roots of <i>Avicennia officinalis</i> . Khung Krabane, Chanthaburi: Floating forming large masses in brackish water shrimp ponds, together with other filamentous blue-green algae; Hua Krang, Phangnga.	Schmidt (1900-1916) Umezaki and Lewmanomont (1991)
	Schizothrix Kützting		
	<i>S. lamyi</i> Gomont	With <i>S. theleporoides</i> on wet rocks in the jungle near Klong Munse.	Schmidt (1900-1916)
	<i>S. theleporoides</i> Gomont	Abundant on rocks in the jungle near Klong Munse.	Schmidt (1900-1916)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Heteroleibleinia</i>		
	<i>H. kuetzingii</i> (Schmidt) Compere	Khung Krabane, Chanthaburi: on <i>Chaetomorpha</i> sp., together with <i>Lyngbya sordida</i> .	Umezaki and Lewmanomont (1991)
	<i>Leibleinia</i> Endl.		
	<i>L. epiphytica</i> (Hieron.) Anagnostidis et Kaomarek	Ban Phe, Rayong: on <i>Lyngbya semiplena</i> .	Umezaki and Lewmanomont (1991)
	<i>L. holdenii</i> (Forti) Umezaki et Lewmanomont, comb. nov.	Si Racha, Chanthaburi: on <i>Lyngbya semiplena</i> , together with <i>Xenococcus gilkeyae</i> .	Umezaki and Lewmanomont (1991)
	<i>L. nordgaardii</i> (Wille) Anagnostidis et Kaomarek	Prasae, Rayong: on <i>Kyrtuthrix maculans</i> ; Khung Krabane, Chanthaburi: on <i>Chaetomorpha</i> sp.	Umezaki and Lewmanomont (1991)
	<i>L. sordida</i> (Zanard. ex Gomont) Umezaki et Lewmanomont, comb. nov.	Khung Krabane, Chanthaburi: on <i>Chaetomorpha</i> sp. in the intertidal zone, on aerial roots of mangrove, together with <i>Calothrix pilosa</i> .	Umezaki and Lewmanomont (1991)
	<i>Microcoleus</i> Desmaz.		
	<i>M. chthonoplastes</i> Thuret ex Gomont	Khung Krabane, Chanthaburi: forming a large mass in a brackish water shrimp pond, together with other filamentous blue-green algae.	Umezaki and Lewmanomont (1991)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>M. tenerrimus</i> Gomont	Ban Phe, Rayong: on dead mollusk shells, together with <i>M. chthonoplastes</i> ; Prasae, Rayong : in the mud covering the rock surface along high tide level, together with <i>Lyngbya semiplena</i> .	Umezaki and Lewmanomont (1991)
	<i>Spirulina</i> Turp. <i>S. major</i> Kützing ex Gomont	Khung Krabane, Chanthaburi: among the filaments of <i>Hydrocoleum lyngbyaceum</i> and other filamentous blue-green algae.	Umezaki and Lewmanomont (1991)
	<i>Symploca</i> Kütz. <i>S. hydroides</i> Kützing ex Gomont	Thailand. Hua Krang, Phangnga; Ko He, and Nai Yang Beach, Phuket. Coral reefs. On gravel or bottom surface of shallow water.	Nateewathana <i>et al.</i> (1981) Umezaki and Lewmanomont (1991) Lewmanomont (1988) Lewmanomont and Ogawa (1995)
	<i>S. laete-virens</i> Gomont	Nai Yang Beach, Phuket.	Umezaki and Lewmanomont (1991)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Phormidium</i> Kützing		
	<i>P. inundatum</i> Kützing	Waterhole near Lem Ngob. Mangrove areas.	Schmidt (1900-1916) Lewmanomont (1976)
	<i>P. ambiguum</i> Gomont	Khung Krabane, Chanthaburi: among the filaments of <i>Hydrocoleum lyngbyaceum</i> and other filamentous blue-green algae.	Umezaki and Lewmanomont (1991)
	<i>P. endolithicum</i> Ercegovic	Ban Phe, Rayong: in dead coral blocks, together with <i>Gomontia</i> stage of <i>Monostroma</i> sp.	Umezaki and Lewmanomont (1991)
Nostocales Nostocaceae	<i>Nodularia</i> Agardh		
	<i>N. spumigena</i> Martens var. β . <i>litorea</i> Bornet et Flahault	Koh Kong, on the sandy seashore between tide- marks.	Schmidt (1911-1916)
	<i>Hormothamnium</i> Grun.		
	<i>H. enteromorphoides</i> Grunow ex Bornet et Flahault	Nai Yang Beach, Phuket.	Umezaki and Lewmanomont (1991)
	<i>H. solutum</i> Bornet et Grunow ex Bornet et Flahault	Thailand. Hua Krang, Phangnga; Rawai Beach, Phuket. Shallow water or tidepools.	Nateewathana <i>et al.</i> (1981) Umezaki and Lewmanomont (1991) Lewmanomont and Ogawa (1995)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
Nostocales			
Scytonemataceae	<i>Desmonema</i> Berkeley et Thwaites		
	<i>D. wrangellii</i> Bornet et Flahault	Jungle near Klong Sarlakpet (alt. 700 ft.) on rocks in a waterfall.	Schmidt (1900-1916)
	<i>Scytonema</i> Agardh		
	<i>S. mirabile</i> Bornet	On dry rocks in the jungle near Klong Munse.	Schmidt (1900-1916)
	<i>S. hofmanni</i> Agardh	Common in the jungle all over Koh Chang, epiphytic on ferns and other low plants and also on rocks.	Schmidt (1900-1916)
	<i>S. ocellatum</i> Lyngbye	Lem Dan, on the stem of Cocoa palms; jungle near Klong Munse, on rocks.	Schmidt (1900-1916)
	<i>S. schmidtii</i> Gomont n.sp.	Open ground near Lem Dan, on limestones.	Schmidt (1900-1916)
	<i>S. javanicum</i> Bornet	Lem Dan, on trees and rocks near the sea; Klong Son, on trees in the jungle.	Schmidt (1900-1916)
	<i>S. guyanense</i> Bornet et Flahault	Lem Dan on trees near the sea ; jungle near Klong Munse, on rocks.	Schmidt (1900-1916)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>S. crispum</i> Bornet	With <i>Stigonema minutum</i> on rocks in the jungle near Klong Munse.	Schmidt (1900-1916)
	Microchaete Thuret		
	<i>M. vitiensis</i> Askenasy ex Bornet et Flahault	Ban Phe, Rayong: on <i>Cladophoropsis</i> sp. in a rock depression along high tide level.	Umezaki and Lewmanomont (1991)
Stigonematales Stigonemataceae	Stigonema Agardh		
	<i>S. mamillosum</i> Agardh	Lem Dan, on stones in a stream.	Schmidt (1900-1916)
	<i>S. informe</i> Kützing	Jungle near Klong Munse, on wet rocks with <i>Stigonema ocellatum</i> and <i>Schizothrix theleporoides</i> , etc.	Schmidt (1900-1916)
	<i>S. turfaceum</i> Cooke	Jungle near Klong Munse, on humid rocks in company with <i>S. minutum</i> .	Schmidt (1900-1916)
	<i>S. minutum</i> Hassall	Klong Munse, on rocks in the jungle; Lem Dan, on stones in a stream.	Schmidt (1900-1916)
	<i>S. ocellatum</i> Thuret	Klong Son and Klong Munse, on wet rocks in the jungle	Schmidt (1900-1916)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>S. hormoides</i> Bornet et Flahault	Jungle near Klong Son, epiphytic on the leaves of small herbs.	Schmidt (1900-1916)
	<i>Hapalosiphon</i> Nägeli		
	<i>H. fontinalis</i> Bornet	Muddy rice-field near Lem Dan epiphytic on <i>Monochoria vaginata</i> , and in a waterhole among other algae.	Schmidt (1900-1916)
Stigonematales			
Mastigocladaceae	<i>Brachytrichia</i> Zanard.		
	<i>B. quoyi</i> (Agardh) Bornet et Flahault	Lem Dan, on stones in the sea shore between tide-marks; Koh Kahdat, coral-reef in shallow water. Koh Chang, Golfe de Siam. Samae San, Chanthaburi.	Schmidt (1900-1916) Weber-van Bosse (1913) Umezaki and Lewmanomont (1991)
		Coral reefs. Floating or cast ashore.	Lewmanomont (1988) Lewmanomont and Ogawa (1995)
	<i>B. maculans</i> Gomont n. sp.	Lem Dan, on maritime rocks between tide-marks. Coral reefs.	Schmidt (1900-1916) Lewmanomont (1988)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Mastigocoleus</i> Lagerh. <i>M. testarum</i> Lagerheim ex Bornet et Flahault	Khung Krabane, Chanthaburi : in dead mollusk shells, in living oyster shells ; Prasae, Rayong : in dead oyster shells; Ban Phe, Rayong : in dead mollusk shells; Tha Nun, Kao Lak, and Hua Krang, Phangnga; Si Racha, Chon Buri : in dead mollusk shells (<i>Tapes</i> sp.) Rawai Beach, Phuket : in dead mollusk shells and in dead coral blocks.	Umezaki and Lewmanomont (1991)
Stigonematales Rivulariaceae	<i>Calothrix</i> Agardh <i>C. crustaceae</i> Thuret	Lem Ngob, mangrove-swamp, on aerial roots of <i>Avicennia officinalis</i> between tide-marks. Koh Chang, Golfe de Siam.	Schmidt (1900-1916) Weber-van Bosse (1913)
	<i>C. scopulorum</i> (W. et M.) Agardh ex Bornet et Flahault	Lem Dan, on stones in the sea shore between tide-marks. Sri Racha, Chanthaburi : on rocks near high tide level, in company with <i>Lyngbya semiplena</i> and <i>L. lutea</i> ; Ban Phe, Rayong : on rocks or on concrete wall near high tide level.	Schmidt (1900-1916) Umezaki and Lewmanomont (1991)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>C. pilosa</i> Harvey ex Bornet et Flahault	Hua Krang, Phangnga : on rocks in the intertidal zone ; Khung Kraben, Chanthaburi : on aerial roots of mangrove.	Umezaki and Lewmanomont (1991)
	<i>Dichothrix</i> Zanard.		
	<i>D. penicillata</i> (Zanard.) ex Bornet et Flahault	Prasae, Rayong : on living oyster shells in the intertidal zone.	Umezaki and Lewmanomont (1991)
	<i>Kyrtuthrix</i> Erceg.		
	<i>K. maculans</i> (Gomont) Umezaki	Prasae, Rayong : on rocks along high tide level. Sri Racha, Chanthaburi : on rocks along high tide level; Kao Lak, Phangnga; Rawai Beach, Phuket. On rocks.	Umezaki and Lewmanomont (1991) Lewmanomont and Ogawa (1995)

**Division : Chlorophyta
Green Algae**

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
Chaetophorales			
Chaetophoraceae	<i>Protoderma</i> Kützing <i>Protoderma</i> sp.	Lem Ngob, on dead shells in the mangrove.	Schmidt (1900-1916)
Cladophorales			
Cladophoraceae	<i>Chaetomorpha</i> Kützing <i>C. antennina</i> (Bory) Kützing	LE 4038, on sloping rock exposed to strong surf, Koh Ra. On rocks in upper tidal zone exposed to strong waves.	Egerod (1971, 1974) Lewmanomont and Ogawa (1995)
	<i>C. capillaris</i> (Kützing) Børgesen	EYD 11471, Saen Soek, northernmost part of the Gulf of Thailand.	Dawson (1954)
	<i>C. linum</i> (Müller) Kützing	LE 3955, mixed with <i>Caulerpa</i> in the Phuket-Market, Koh Phuket. EYD 11465, Saen Soek, northernmost part of the Gulf of Thailand.	Egerod (1971, 1974) Dawson (1954)
	<i>C. crassa</i> (C. Ag.) Kützing	Free floating or growing entangled on other seaweeds or seagrasses in intertidal areas.	Lewmanomont and Ogawa (1995)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Rhizoclonium</i> Kützing		
	<i>R. africanum</i> Kützing	LE 4050, in shade on underside of a fallen tree trunk at upper tide level, Koh Pa Yam. On roots of mangrove trees.	Egerod (1971, 1974) Lewmanomont (1976)
	<i>R. grande</i> Børgesen	Thailand. South of Takuapa, mainland, upper littoral on sand covered rock in conglomerate mat of <i>Valoniopsis pachynema</i> and <i>Cladophoropsis sundanensis</i> .	Nateewathana <i>et al.</i> (1981) Egerod (1975)
	<i>Cladophora</i> Kützing		
	<i>C. fascicularis</i> (Mert.) Kützing	LE 4124, from Samira Beach, Songkhla, Gulf of Thailand. South of Takuapa, mainland, on <i>Cladophora regulosa</i> growing in the upper littoral on rocky outcroppings, Koh Phuket, Nai Yang, on <i>Cladophora regulosa</i> growing on sandstone / limestone slabs in the littoral zone. Thailand. Mangrove areas.	Egerod (1971, 1974) Egerod (1975) Nateewathana <i>et al.</i> (1981) Lewmanomont (1976)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>C. sibogae</i> Reinbold	LE 3964, a lax green fleece on stones at river mouth about middle level in sandy estuary, Terutao; 3061-3, epiphytic on <i>Padina tenuis</i> (3961) growing in mid-upper littoral rock pool of sandy beach, Western Bay, Terutao; 4062, forming soft felted pads common at Koh Pa Yam near Ranong.	Egerod (1971, 1974)
	<i>C. regulosa</i> Martens	South of Takuapa, mainland, on rocky outcropping, upper littoral. Thailand. On rocks in intertidal areas.	Egerod (1975) Nateewathana <i>et al.</i> (1981) Lewmanomont and Ogawa (1995)
	<i>C. socialis</i> Kützing	LE 4112, dredged at 10 meters, Stat, 1177. Mangrove areas.	Egerod (1971, 1974) Lewmanomont (1976)
Cladophorales	<i>Anadyomene</i> Lamouroux		
Anadyomenaceae	<i>A. wrightii</i> Harvey ex J.E. Gray	Thailand. Coral reefs.	Nateewathana <i>et al.</i> (1981) Lewmanomont (1988)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Microdictyon</i> Decaisne		
	<i>M. japonicum</i> Setchell	On rocks or coral fragments in intertidal areas and tide pools, sometimes exposed during low tide.	Lewmanomont and Ogawa (1995)
Ulvales Ulvaaceae	<i>Enteromorpha</i> Link.		
	<i>E. clathrata</i> (Roth) Greville	LE 3956, attached to floating <i>Sargassum</i> in Phuket Bay. EYD 11455; Saen Soek, northernmost part of the Gulf of Thailand. Coral reefs. On pebbles or rocks at high tide levels.	Egerod (1971, 1974) Dawson (1954) Lewmanomont (1988) Lewmanomont and Ogawa (1995)
	<i>E. compressa</i> L. ζ <i>trichodes</i> Kützing	Simaharadscha in Siam.	Martens (1866)
	<i>E. flexuosa</i> (Wulfen et Roth) J. Ag.	LE 3987, growing on wood, Teluk Udang, Terutao. Mangrove areas and coral reefs.	Egerod (1971, 1974) Lewmanomont(1976,1988)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>E. intestinalis</i> (Linn.) Link	LE 4012, attached to pebbles entwined with <i>Sargassum</i> (4010) in muddy ground with stones near low water, Laem Phya Pa. Mangrove areas. On rocks or shells in upper intertidal areas, exposed during low tide.	Egerod (1971, 1974) Lewmanomont (1976) Lewmanomont and Ogawa (1995)
	<i>E. plumosa</i> Kützing	Koh Chang-Strait, shallow water in some places between tide-marks.	Schmidt (1900-1916)
	<i>Ulva</i> Linnaeus		
	<i>U. reticulata</i> Forsskål	Mangrove areas. Floating near shore, often cast ashore or entangled with other seaweeds.	Lewmanomont (1976) Lewmanomont and Ogawa (1995)
Ulvales			
Monostromataceae	<i>Monostroma</i>		
	<i>M. nitidum</i> Wittrock	On mangrove roots in upper intertidal habitats, usually exposed during low tide.	Lewmanomont and Ogawa (1995)

Order / Family	Genus / Species	Site found	Reported by / Year
Siphonocladales			
Valoniaceae	Valonia Ginnani		
	<i>V. Forbesii</i> Harv.	Koh Kahdat, in 1-2 fathoms water (coral sand).	Schmidt (1900-1916)
	<i>V. utricularis</i> (Roth) C. Ag.	Koh Kahdat, on coral-reefs, in shallow water. LE 4087, at Koh Similan.	Schmidt (1900-1916) Egerod (1975)
		Laem Phan Wa, Phuket and Koh Lon Thailand. Coral reefs.	Nateewathana <i>et al.</i> (1981) Lewmanomont (1988)
	<i>V. aegagrophila</i> C. Agardh	Coral reefs. On rocks or coral fragments of sandy bottoms in shallow water.	Lewmanomont (1988) Lewmanomont and Ogawa (1995)
	<i>V. macrophysa</i> Kützing	Growing on rocks at the depth of about 3 meters during low tide.	Lewmanomont and Ogawa (1995)
	<i>V. ventricosa</i> J. Agardh	Koh Bon, Koh Kaeo Yai, growing on submerged coral at a depth of 2 to 3 m Thailand. Coral reefs. Growing singly or clusters attached to corals at the depth of 3-4 meters.	Egerod (1975) Nateewathana <i>et al.</i> (1981) Lewmanomont (1988) Lewmanomont and Ogawa (1995)

	Valoniopsis Børgesen		
	<i>V. pachynema</i> (Martens)	LE 4046, at Koh Ra.	Egerod (1971, 1974)
	Børgesen	South of Takuapa, mainland, on rocky outcropping along sandy beach at upper tide level. Thailand. Coral reefs.	Egerod (1975) Nateewathana <i>et al.</i> (1981) Lewmanomont (1988)
	Boergesenia Feldmann		
	<i>B. forbesii</i> (Harvey) Feldmann	On rocks or coral fragments in tide pools or reef flats.	Lewmanomont and Ogawa (1995)
	Dictyosphaeria Decne.		
	<i>D. cavernosa</i> (Forsskål)	LE 3958-2, mixed with <i>D. verluysii</i> (3958), Tarutao; 493, Koh Similan, a single specimen. Phuket, Rawai beach, on silted, dead coral at mid-tide level. Thailand. Coral reefs.	Egerod (1971,1974) Egerod (1975) Nateewathana <i>et al.</i> (1981) Lewmanomont (1988)
	Børgesen	On rocks or coral fragments of upper or middle intertidal habitats.	Lewmanomont and Ogawa (1995)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>D. favulosa</i> (Mert.) Decne.	Koh Kahdat, in 1-2 fathoms water (coral-sand).	Schmidt (1900-1916)
	<i>D. versluysii</i> Weber van Bosse	LE 3958, mixed with <i>D. cavernosa</i> (3958-2), Tarutao. Thailand.	Egerod (1971, 1974) Nateewathana <i>et al.</i> (1981)
	<i>Pseudostruvea</i> Egerod gen.nov.		
	<i>P. siamensis</i> Egerod sp.nov.	South of Takuapa, in mat of <i>Cladophoropsis sudanensis</i> , Nai Yang Beach, Phuket, epiphytic on <i>Cladophora regulosa</i> . Thailand.	Egerod (1975) Nateewathana <i>et al.</i> (1981)
Siphonocladales	<i>Struvea</i> Sonder		
Siphonocladaceae	<i>S. anastomosans</i> (Harv.) Picc. et Grun. ex Piccone	LE 1041 (Thailand) confirms the report of Reinbold(1901) under the synonym, <i>S.delicatula</i> . Laem Phap Pha, Phuket . Thailand. On rocks or coral fragments or other seaweeds of intertidal habitats and tide pools.	Egerod (1971, 1974) Egerod (1975) Nateewathana <i>et al.</i> (1981) Lewmanomont and Ogawa (1995)
	<i>S. delicatula</i> Kützing	Koh Lom, on coral-reefs in shallow water.	Schmidt (1900-1916)
	<i>Siphonocladus</i> Schmitz		
	<i>S. zollingeri</i> (Kützing) Born.	Koh Kahdat, in 5 fathoms water (coral-sand).	Schmidt (1900-1916)

	<i>L. villum</i> (J. Agardh) Setchell et Gardner	Thailand.	Nateewathana <i>et al.</i> (1981)
	Tolypocladia Schmitz		
	<i>T. glomerulata</i> (Ag.) Schm.	Koh Kahdat; Koh Chang Noi, on coral-reefs in shallow water. Thailand. Coral reefs.	Schmidt (1900-1916) Nateewathana <i>et al.</i> (1981) Lewmanomont (1988)

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>Spyridia</i> Harvey		
	<i>S. filamentosa</i> (Wulf.) Harvey	Koh Kahdat, in 1-2 fathoms water (coral-sand); off Koh Kam, in 10 fathoms water (gravel). EYD 11472, Saen Soek, northern most part of the Gulf of Thailand. Widely distributed in all warm and temperate seas. Mangrove areas and coral reefs.	Schmidt (1900-1916) Dawson (1954) Lewmanomont (1976, 1988)
	<i>Leveillea</i> Decne.		
	<i>L. jungermannioides</i> (Mont. et Her.) Harvey	Koh Chang Noi, Koh Lom, on coral-reefs in shallow water. Coral reefs. Common epiphyte on the brown seaweed genus <i>Sargassum</i> .	Schmidt (1900-1916) Lewmanomont (1988) Lewmanomont and Ogawa (1995)
	<i>Laurencia</i> Lamx.		
	<i>L. dendroidea</i> J. Ag.	Koh Kahdat, cast ashore.	Schmidt (1900-1916)
	<i>L. divaricata</i> J. Ag.	Koh Kahdat, in 1-2 fathoms water (coral-sand).	Schmidt (1900-1916)
	<i>L. implicata</i> J. Ag.	Simaharadscha in Siam.	Martens (1866)
	<i>L. composita</i> Yamada	On shells, pebbles and rocks in subtidal areas.	Lewmanomont and Ogawa (1995)

MARINE ALGAE IN THAILAND

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
	<i>L. obtusa</i> (Huds.) Lamx.	Koh Chang-Strait at Lem Ngob, on rocks between tide-marks. EYD 11463, Saen Soek, northern most part of the Gulf of Thailand. Widely distributed in all warm oceans.	Schmidt (1900-1916) Dawson (1954)
		Chon Buri, Rayong, Trat, Chanthaburi and Surat Thani. Mangrove areas and coral reefs. On dead corals or rocks of intertidal habitat.	Lewmanomont (1978) Lewmanomont (1976, 1988) Lewmanomont and Ogawa (1995)
	<i>L. papillosa</i> (Forssk.) Greville	Mangrove areas. On shells or pebbles in tide pools of muddy or muddy sandy areas, sometimes exposed during low tide.	Lewmanomont (1976) Lewmanomont and Ogawa (1995)
	<i>L. corymbosa</i> J. Agardh	Thailand.	Nateewathana <i>et al.</i> (1981)
	<i>L. parvipapillata</i> Tseng	Mangrove areas.	Lewmanomont (1976)
	<i>L. majuscula</i> (Harvey) Lucas	Coral reefs.	Lewmanomont (1988)
	<i>L. cartilaginea</i> Yamada	On rocks of sandy rocky areas in subtidal zone.	Lewmanomont and Ogawa (1995)

Order / Family	Genus / Species	Site found	Reported by / Year
Ceramiales			
Solieriaceae	<i>Solieria</i> Agardh <i>S. robusta</i> (Grev.) Kylin	EYD 11464, Saen Soek, northern most part of the Gulf of Thailand. On shells or gravel in intertidal zone, exposed during low tide.	Dawson (1954) Lewmanmont and Ogawa (1995)
Rhabdoniaceae	<i>Catenella</i> Greville <i>C. nipae</i> Zan.	Koh Chang-Strait, at Lem Ngob creeping on the roots of mangrove trees between tide-marks. Mangrove areas. In upper tidal zone, always exposed at low tide.	Schmidt (1900-1916) Lewmanomont (1976) Lewmanomont and Ogawa (1995)
	<i>C. repens</i> (Lightfoot) Batters	Mangrove areas.	Lewmanomont (1976)
	<i>Rhabdonia</i> Harv. <i>R. Schmidtii</i> Reinb.n.sp.	Koh Chang-Strait, in shallow water near Lem Ngob.	Schmidt (1900-1916)

MARINE ALGAE IN THAILAND

Order / Family	Genus / Species	Site found	Reported by / Year
Ceramiales Delesseriaceae	<i>Caloglossa</i> (Harvey) J. Agardh <i>C. mnioides</i> Harvey	15 miles E. of Koh Chuen in 10 fathoms water (shells). Very young specimens only, therefore somewhat doubtful as to species.	Schmidt (1900-1916)
